The Associated Students of Western Washington University are charged, by the Board of Trustees, with the responsibility for providing a framework for the development of a program of student activities, in which student initiative and responsibility may find expression. Thus, in order to assure equal access to ASWWU this policy governs the process of creating or elimination of AS Programs, Services, or Administrative Offices.

I. Programs and Services
   A. In order to create a new program, service, or administrative office the following process will be used:

SPAC will also send the proposal to the AS Facilities and Services Council (FSC) for review and comment if the proposal requires physical space.
      3. After the AS Board of Directors has received the recommendations and comments from both SPAC and FSC they will forward the proposal to the AS Business Director for appraisal on approximate cost for the program, service or administrative office.
      4. Upon appraisal from the AS Business Director the AS Board of Directors will deliberate and make a decision to reject, approve, or modify the proposed program, service, or administrative office. No program, service, or administrative office will be created without a minimum of two informational board meetings and then voted on in a third board meeting as an action item.
